

OLERATO MOEKO

Pretoria, Gauteng | 061 892 1558 | oleratom0211@gmail.com

PROFILE

Final-year Diploma in Computer Science student at Tshwane University of Technology, seeking a Work Integrated Learning (WIL) placement to complete qualification requirements. Strong foundation in object-oriented programming, database design and Java Enterprise Edition development, demonstrated through an independently built campus maintenance reporting system. Eager to apply academic knowledge in a professional environment, learn from experienced developers and contribute to real-world software projects.

EDUCATION

Diploma in Computer Science *Expected completion: 2027**

Tshwane University of Technology, Pretoria

**Pending completion of a 6-month Work Integrated Learning placement. All theoretical coursework complete.*

Relevant Modules

Java & Object-Oriented Programming, SQL & PostgreSQL (Database Development), Internet Programming (Java EE), Systems Analysis & Design

TECHNICAL SKILLS

- Programming: Java, Object-Oriented Programming (OOP)
- Databases: SQL, PostgreSQL, Apache Derby
- Web & Enterprise: Java EE (JEE), Servlets, JSP, JPA, EJB, MVC architecture
- Front-end: HTML, CSS, JavaScript
- Tools & Platforms: NetBeans IDE, GlassFish Application Server

PROJECT EXPERIENCE

Campus Maintenance System (CMS) — Java EE Web Application

Independently designed and built a role-based web application to centralise maintenance issue reporting and resolution for a university campus, addressing delayed repairs and lack of accountability caused by manual reporting processes.

- Built using Java EE (Servlets, JSP, JPA entities, EJBs) following an MVC architecture, with GlassFish as the application server and Apache Derby as the database
- Implemented role-based authentication and dashboards for three user types: reporters, maintenance staff and administrators
- Developed issue submission and status-tracking functionality (Pending, In Progress, Complete) with task assignment for administrators
- Added PDF export of maintenance records for administrative reporting
- Applied an authorization filter (AuthFilter) to restrict access based on user role

ADDITIONAL INFORMATION

- Available to commence WIL placement immediately
